INTRODUCING *EXPRESS* *MERCHANTS*

Founded in 2017, **Express Merchants** set out to change how tail-spend procurement works for FM companies across Ireland and the UK.

We saw the inefficiencies, delays, and disconnected supplier networks. We listened to frustrated engineers and contract managers – and knew there had to be a better way.

So we built one.

Today, leading multinational FM companies rely on **Breeze** to manage their tail spend, gain visibility, and drive sustainability and value – every single day.

WHAT MAKES US DIFFERENT?

We are Not a Merchants' Group. We are Not a Supplier. We are Something New.

Neutral by Design

We don't hold stock or promote products to clear warehouses. Our recommendations are based solely on what's best for your clients – not what's sitting on a shelf.

Built for Facilities Management

From supplier categories to reporting and one-off payments, every part of our platform is tailored specifically for the unique needs of FM teams.

Experts in Tail Spend

We specialise where others fall short – managing low-value, high-frequency, multi-site procurement with precision and scale.

100% Transparent

No hidden mark-ups. No surprise charges. What's agreed with procurement is exactly what you pay – nothing more.
